FOR MARC SHERMAN AT WOOLPERT

Jambo House Light and space

A lighting study built around the curved roof, main window and connected model.

Curved arches and source geometry

Dunderklumpen, 2010. CC BY-SA 3.0. Resized and cropped source photograph.

Span and rise

Spring points and curve

Member sections and joints

Exact arch profiles need verified dimensions and an independent model check.

Photo-based study geometry remains provisional.

GO3D STUDIO

Morning light and evening atmosphere

The study follows the main glazing, curved roof, bridge views and overhead fixtures.

MORNING CONCEPT / HARSHLIGHT 2017 SOURCE

EVENING CONCEPT / SAM HOWZIT 2015 SOURCE

Runway visualizations of CC BY 2.0 archival photographs.
Geometry and photometry remain unverified. These images are not measured site evidence.

One project record connects the review

Update the shared twin once.
Connected Woolpert views receive the published revision.

Shared content	What the reviewer can do
Model and layers	Explore the lobby, exterior and available element groups
Drawings and sources	Trace a view to its sheet and source record
New project files	Add survey, CAD, point clouds and images for review

New evidence passes review and alignment before it changes the published model.

The study package is ready to review

Interactive model and layers	**Open the live review**
Light-cycle animation	**Play the 24-second study**
Lighting study and camera views	**Open the six-page PDF**
Photo and generation provenance	**Open the evidence register**
Model exchange and drawings	**Open the review workspace**

IFC is exchange geometry for a Revit import check. A validated native RVT has not been issued.

GO3D STUDIO

The decisions for this morning

01 **Confirm the target**

Building, floor and marked work boundary

02 **Set the measurement basis**

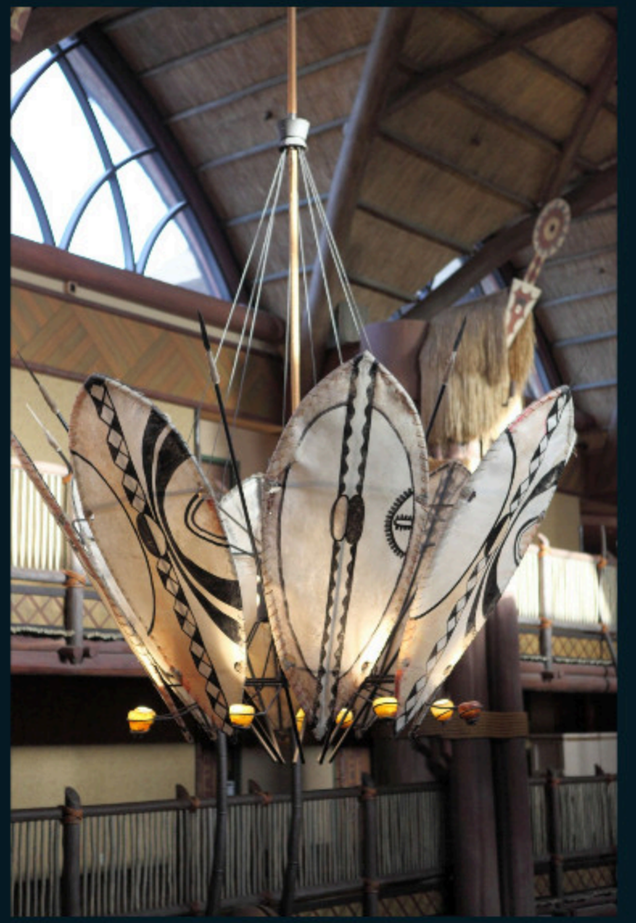

Control dimensions and acceptance tolerance

03 **Choose the model scope**

Ceiling, lighting, bridge and visible systems

04 **Agree the handoff**

File formats, review owner and capture gaps

Sam Howzit, 2015. CC BY 2.0. Resized.

Provisional study. No accepted LOD 250 regions.
